

MOROCCAN COMMITTEE
OF GEOSYNTHETICS

Press Release

Seminar entitled:

«GEOSYNTHETICS AT THE SERVICE OF THE ENVIRONMENT AND SUSTAINABLE DEVELOPMENT»

08-10 June 2023 in Marrakesh

The Moroccan Geosynthetics Committee (CMG), in partnership with the International Geosynthetics Society (IGS), will hold the **5th Geosynthetics Meeting** on the theme: "**Geosynthetics at the service of the Environment and Sustainable Development**", on **8, 9 and 10 June 2023 in Marrakesh**. This event is an opportunity for different national and international experts to present their cases and to exchange on the different innovative applications in Geosynthetics. This seminar is targeting the scientific community, and represents an opportunity to connect owners, contractors, ordering parties, engineering firms and companies involved in the fields of construction, public works, agriculture and environment.

Six **Keynotes** will be delivered by distinguished international experts to introduce the state of the art and the breakthroughs achieved in the fields of Geosynthetics. A dozen **stands run** by specialists will be held to highlight the innovations in the various products and the benefits of their applications to meet environmental requirements. On June 10, **technical visits** to construction sites in the vicinity of Marrakech will be organized.

The Moroccan Geosynthetics Committee, created on 13 December 2012, aims at offering a meeting place where the engineers and technicians can gather and even stimulate investors to exchange around their expertise, both successful or in difficulty, in Geosynthetics and related products. After a long shutdown period imposed by the COVID-19 pandemic, the CMG's technical and scientific activities are resumed in order to continue to raise the profile of the profession and strengthen the capacities of the target players.

You will find useful information on the event's page : www.cmq-asso.org

Reminder:

Event: **5th Geosynthetics Meeting** - **Venue:** Hôtel Kenzi Rose Garden Marrakesh -
Date : from 08 to 10 June 2023
